

Makena Gadiant

I am excited to be running as one of your board members. I have 4 years of union organizing and advocating experience. I was a strike captain for this current contract, and have been a Sped IA for 7 years. This year is my first year as a sped teacher, and I love it! I am an advocate for our special education staff, students, and families. I will be an advocate for both certificated and classified, and would like to further advocate as one of your board members. While I'm running for a high school board member position, I will be fighting for all grades and am open to hearing from anyone in our union who needs or wants supports. Thank you.
