

Stefanie Skiljan

As a leader on the Member Action Team during our 2022 strike, I was deeply inspired by members' commitment to creating the schools we and our students deserve.

Connecting with union members at other schools was empowering and I learned about needs across our district and neighborhoods. As a rep I wanted to have my and my colleagues' voices better heard when talking to admin and the district. I want to be on the BOD to support on-the-ground organizing at our schools. I believe that our strength as a union comes from active membership, and I trust our members to make decisions that will guide our union. As a board member, I will be committed to inclusive organizing and decision-making that leads to action. I look forward to working with SEA members and leadership for better funded schools, better working conditions, and stronger connections with our students, families, and communities.
