

## About Ronnue Mc Thomas

I have been working for Seattle Public Schools for eight years. I started as a playground supervisor and worked my way up to a Correctional Education Associate. I have worked in every department in SPED, beginning with Distinct and ending with Access. I started seeing cracks in the education system and decided to jump in the ring to try to repair them by taking on leadership roles. Some of the positions I have held are Building Safety Chairmen, BLT participant, and SPED Task-force participant. I am currently serving my first full term as Para Secretary. I feel like I have so much to give and want to continue to help rebuild the education system. This is one of the reasons

I am running for  
the office of Para Vice President.
